TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 177; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 937—ZINC

[Conservation Order M-11-b, as Amended
Oct. 11, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of zinc for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 937.3 Conservation Order M-11-b—

(a) *Scope of the order.* This order controls generally the use of zinc and zinc products. Under the order some uses are entirely prohibited, other uses are permitted free of any restriction, and still other uses are permitted but with a limitation on the amount of zinc and zinc products which may be used. Special restrictions may also be found in other orders of the War Production Board relating to particular articles or parts. In such case the more restrictive provision governs. In no case shall any person use any zinc or zinc products in violation of this order.

(b) *Definitions.* For the purpose of this order:

(1) "Zinc" means zinc metal which has been produced by an electrolytic, electro-thermic, or fire refining process. It includes zinc scrap, zinc metal produced from scrap, and any alloy in which the percentages of zinc metal by weight is more than 50%.

(2) "Zinc products" means zinc in the form of sheet, strip, rod, wire, castings, or dust.

(c) *Prohibited articles; List A.* The use by any person of zinc and zinc products in the manufacture of articles on List A of this order, and of parts for these articles, is prohibited. This pro-

hibition includes the use of zinc and zinc products to apply any protective coating or plating (other than paint) of zinc to articles on List A. It does not include the use of zinc or zinc products in the manufacture of repair parts to replace similar parts of zinc, or to the protective coating of such repair and replacement parts.

(d) *Unrestricted articles and uses; List B.* There are set forth in List B of this order certain articles and uses for which zinc and zinc products may be used with no restriction insofar as this order is concerned. For articles on this list, other orders of the War Production Board may limit production; this order does not remove any such limitation, but merely authorizes free use of zinc and zinc products providing other orders of the War Production Board are not violated.

(e) *Restricted articles.* For articles not on either List A or List B, the use of zinc and zinc products is permitted, but with the following limitation on the amounts which may be used; namely, that no person shall in any calendar quarter use more:

(1) Zinc in the production of any zinc products not requiring further processing, assembling, or finishing; or

(2) Zinc products in the manufacture of any article or parts;

Than 20% of the amount by weight of zinc or zinc products used by him for the same purpose during the entire calendar year 1941. As in the case of List A articles (see paragraph (c) above), this restriction does not apply to the use of zinc or zinc products in the manufacture of repair parts to replace similar parts of zinc or to the protective coating of such parts.

(f) *General exceptions.* The prohibitions and restrictions in paragraphs (c) and (e) shall not apply to the use of zinc or zinc products for the manufacture of any items under a specific contract or sub-contract covering the manufacture of any product, or any component to be physically incorporated into such product, produced by or for the account of the Army or Navy of the United States, the United States Maritime Com-

(g) *Restrictions on sales and deliveries of zinc and zinc products.* No person shall sell or deliver any zinc or zinc products to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(h) *Exceptions under Priorities Regulation 25.* All requests for exceptions from the restrictions on use of zinc or zinc products in paragraphs (c) and (e) and List A must be filed under Priorities Regulation 25. Some other orders of the War Production Board contain restrictions on the use of zinc or zinc products. An authorization granted under Priorities Regulation 25 will not waive the other restrictions unless the order containing them or a direction to Priorities Regulation 25, states that it will. In the absence of such a statement, it is also necessary to get relief from the restrictions of the other order in the manner provided in that order.

(i) *Violation.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. PART 1010—SUSPENSION ORDERS

[Suspension Order S-609]

THOMPSON-WINCHESTER CO.

Thompson-Winchester Company, a corporation located at 201-203 State Street, Boston, Massachusetts, is engaged primarily in the business of selling food service equipment, and also in the selling of refrigeration equipment. Between December 6, 1943 and February 15, 1944, Thompson-Winchester Company sold and delivered thirty-four (34) farm milk coolers to persons who did not have purchase certificates and pursuant to orders which were not approved orders, in violation of Limitation Order L-38. The responsible officers of Thompson-Winchester Company were familiar with the provisions of Limitation Order L-38 and its actions constituted wilful violations of that order.

These violations have diverted critical material to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.609 *Suspension Order No. S-609.* (a) Thompson-Winchester Company shall not order, sell, accept delivery of or deliver any refrigeration equipment as defined by Limitation Order L-38: *Provided*, That this restriction shall not apply to the sale and delivery of farm milk coolers as specified in Limitation Order L-257.

(b) Thompson-Winchester Company shall not apply or extend any preference

ratings or use any CMP allotment symbols except to fill orders for repair parts to service equipment already installed and to fill orders for delivery to the Army, Navy or other War Agencies.

(c) Thompson-Winchester Company shall cancel immediately all preference ratings which it has applied or extended to orders which have not been filled with the exception of orders excepted from the provisions of paragraph (b), and with the further exception that if respondent has extended a customer's rating to get an item for delivery without change in form to that customer (as distinct from replacing it in inventory), respondent need not cancel the rating provided the item when received is promptly delivered to the customer whose rating was extended.

(d) The restrictions and prohibitions contained herein shall apply to Thompson-Winchester Company, its successors and assigns or persons acting on its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(e) Nothing contained in this order shall be deemed to relieve Thompson-Winchester Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(f) This order shall take effect on October 10, 1944 and shall expire on December 31, 1944.

Issued this 3d day of October 1944.

Recording Secretary.

PART 95—CAR SERVICE

DISTRIBUTION OF GRAIN CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 10th day of October, A. D. 1944.

It appearing, that the demand for cars for grain loading at stations in the States of Minnesota, Montana, North Dakota, South Dakota, and Wisconsin is placing an inordinate burden on the car supply, and that the need for an equitable distribution of such cars to obtain a fair supply between all shippers is of vital importance; in the opinion of the Commission an emergency exists requiring immediate action.

It is ordered, that:

(a) *Definitions.* (i) The term "prompt loading," as used in these rules, is intended to mean that a car placed for loading not later than 12:00 Noon must be loaded and billing instructions tendered on or before 10:00 a. m. the following business day, failing which, such car will be charged against the consignor's or shipper's allotment as an additional empty for each succeeding day held for loading, or for billing instructions.

(ii) The term "blocked elevator," as used in these rules shall be held to mean an elevator containing grain to at least 75% of its rated capacity and that the carrier's agent has been notified to this effect in writing and other consignors or shippers have been given an opportunity for verification. The term "rated capacity" shall be held to mean the capacity filed with State authorities as basis for license.

(b) *Cars not to be furnished or supplied for grain loading.* No common carrier by railroad subject to the Interstate Commerce Act shall supply or furnish any car to any consignor or shipper of grain for loading and transportation unless such consignor or shipper has first:

(i) Advised the carrier's agent, the preceding Saturday, of the total quantity of grain on hand to be tendered for rail shipment, and

(ii) Made a written order on the carrier's agent (See Note below) for cars wanted for grain loading showing the (a) date of order, (b) number of cars wanted, (c) whether car is for bulk or sacked grain, (d) destinations, (e) date wanted to load, (f) quantity of each kind of grain on hand and conveniently located for prompt loading tendered for rail shipment, and (g) name of shipper.

NOTE: Orders from shippers served by more than one railroad shall be placed jointly when cars are required from more than one carrier. Copies of all orders, whether single or joint, shall be sent as information to each of the other roads serving the industry. Such combined orders shall not exceed the total grain conveniently located for prompt loading tendered for shipment.

(c) *Distribution.* After a consignor or shipper has complied with paragraph (b)

hereof, each common carrier by railroad subject to the Interstate Commerce Act shall supply a car or cars to such consignor or shipper but such carrier or carriers shall distribute its cars available for grain loading in accordance with the following rules:

(i) The ratio of the quantity of grain reported in accordance with paragraph (b) (i) hereof by each consignor or shipper to the total quantity of grain reported by all consignors or shippers shall be the percentage basis for the distribution of available cars at each station during the ensuing week for grain loading.

(ii) When a consignor's or shipper's pro-rata share of the available car supply is a fraction of a car, the fraction will be carried to the consignor's or shipper's credit, and the consignor or shipper will be entitled to car supply on the basis of the aggregate of such fractional credits.

(iii) Cars shall not be furnished in excess of a consignor's or shipper's ability to load and ship promptly.

(iv) In case one or more elevators at a station are blocked, the available cars shall be distributed as follows: the first car to first elevator blocked and thereafter during such time as elevators remain blocked cars shall be distributed consecutively to blocked elevators in the order in which they become blocked until the blocked condition in all elevators is relieved. After each blocked elevator has been furnished one car, any cars remaining will be furnished all shippers at such station in accordance with the provisions of paragraph (c) hereof.

(d) *Application.* (i) The provisions of this order shall apply to intrastate as well as interstate commerce.

(ii) This order shall apply only at points located in the States of Minnesota, Montana, North Dakota, South Dakota, or Wisconsin. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, that this order shall become effective at 12:01 a. m., October 11, 1944; that a copy of this order and direction shall be served upon the Commissions regulating common carriers by railroad in the States of Minnesota, Montana, North Dakota, South Dakota, and Wisconsin, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Chapter II—Office of Defense
Transportation

[General Order ODT 21A]

PART 501—CONSERVATION OF MOTOR
EQUIPMENT

CERTIFICATES OF WAR NECESSITY FOR AND
CONTROL OF COMMERCIAL MOTOR VEHICLES

General outline. This General Order ODT 21A supersedes General Order ODT 21, as amended, and beginning October 16, 1944, controls the issuance and effect of certificates of war necessity and, in part, the operation of commercial motor vehicles thereunder.

Existing certificates, other than fleet unit certificates, issued under the superseded order are continued in effect but are made subject to the provisions of this order. Likewise, administrative proceedings pending under the superseded order on October 16, 1944, will be disposed of in accordance with the provisions of this order. It is also provided that liabilities, civil or criminal, incurred under the superseded order shall not abate.

This General Order ODT 21A provides that no person shall operate any commercial motor vehicle within the continental United States unless there is in force with respect to such vehicle a certificate of war necessity issued by the Office of Defense Transportation governing such operation. A commercial motor vehicle is defined as including, among other things, a straight truck, a combination truck-tractor and semi-trailer, a full trailer, bus, taxicab, jitney, public rental passenger car, an ambulance, and a hearse. Private passenger automobiles used as such are excluded. Certain commercial motor vehicles are exempted from all provisions of the order.

An application for a certificate must be made in writing upon a form provided by the Office of Defense Transportation and approved by the Bureau of the Budget. Application forms may be secured from any local War Price and Rationing Board of the Office of Price Administration, from any County Farm Transportation Committee of the Department of Agriculture, or from any district or field office of the Office of Defense Transportation. The application is to be filed in the district or field office of the Office of Defense Transportation for the district in which the home office or principal place of business of the applicant is located.

Provision is made for the issuance of a certificate when it is established that the operations of the vehicle or vehicles to be covered thereby are in furtherance of transportation service necessary to the war effort or to the maintenance of essential civilian economy. Each certificate will contain limitations with respect to mileage or motor fuel or both which are calculated to assure maximum utilization of the vehicle or vehicles to be operated thereunder, to conserve and providently utilize motor fuel, rubber or

rubber substitutes, and other critical materials, and to conform the operations to applicable outstanding orders of the Office of Defense Transportation and written public statements of policy issued by its Director.

Fleet unit certificates are abolished. In lieu thereof, certificate holders are required to keep the Office of Defense Transportation informed of the specific vehicles being operated by them under their respective certificates. Any vehicle not so reported will not be considered as covered by the certificate.

A certificate of war necessity is not transferable. It is provided that in the event of a sale or other transfer of a business or activity in furtherance of which vehicles are operated under a certificate, such certificate shall become void and shall be promptly surrendered by the holder and a new certificate will be issued to the purchaser or successor in interest upon his application therefor without further showing. Provision is also made for a situation wherein the sale or other transfer is for a portion only of the certificate holder's business or activity.

A certificate issued under this order becomes effective upon the date of its issuance and remains in effect according to its terms until amended or modified, or until suspended, recalled, cancelled, or revoked in whole or in part, for good cause. This order sets forth what constitutes good cause, and also provides for summary cancellation of certificates under certain circumstances. Any certificate holder aggrieved by any determination of limitations or requirements certified in a certificate, or by any amendment, modification, suspension, recall, cancellation, or revocation, may apply for reconsideration, review, or appeal in accordance with established procedures.

The order requires the periodic inspection of tires of commercial motor vehicles. An exception is made in favor of such vehicles as are not licensed for highway operation, or which by reason of limited license cannot be operated over highways necessary to be traveled in order to obtain tire inspection.

Under the terms of the order, whenever the Office of Defense Transportation deems it advisable or necessary to the prosecution of the war or to the maintenance of essential civilian economy, or in the public interest, it may cause any commercial motor vehicle to be operated in such manner, for such purpose, and between such points, as the Office may direct, or to be leased or rented to such person or persons as the Office may direct.

Operators of commercial motor vehicles are required to prepare and maintain records in respect of the operation of their vehicles. These records are to be open to inspection by the Office of Defense Transportation at all reasonable times.

This general outline shall not be construed to alter the meaning of any provision contained in the order.

The text of General Order ODT 21A follows:

Pursuant to Title III of the Second War Powers Act, 1942, Executive Orders 8989, as amended, 9156, and 9294, and War Production Board Directive 21, and in order to conserve and providently utilize vital transportation equipment, materials, and supplies; and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war; and being satisfied that the fulfillment of the requirements for the defense of the United States has resulted and will result in a shortage in the supply of motor transportation equipment, materials, and supplies for defense, and for private account and for export, and it being deemed necessary and appropriate in the public interest and to promote the national defense to allocate the use of commercial motor vehicles, General Order ODT 21, as amended, (7 F.R. 7100, 9437; 8 F.R. 2510, 7357, 7880, 9033, 13071; 9 F.R. 7451) shall be superseded, and it is hereby ordered, that:

NAVY DEPARTMENT.

NATURAL GASOLINE AND LIQUEFIED PETROLEUM GAS

CALL FOR BIDS

Invitation for bids with respect to natural gasoline and liquefied petroleum gas produced for the United States Navy from Naval Petroleum Reserve No. 1 (Elk Hills), Kern County, California.

1. Pursuant to the Act and the Joint Resolution of Congress approved June 17, 1944, Public Laws No. 343 and 344, respectively, 78th Congress, 2d Sess., the Navy Department will have available for public sale to the highest qualified bidder natural gasoline and, under certain circumstances, liquefied petroleum gas, in the estimated quantities, at the approximate times and at the places indicated below. Bids for such products are requested in compliance with the terms of the above cited Act and Joint Resolution and the conditions and provisions to which reference is hereinafter made.

2. The public sale will take place in the office of the District Supply Officer, Twelfth Naval District, Room 545, Federal Office Building, San Francisco 2, California, at 10:00 a. m. (P. W. T.) October 24, 1944. No one will be permitted to bid at such sale who has not in advance thereof filed in writing with said Officer (a) a bid and (b) a statement describing his qualifications. The bids and statements will be read aloud at the sale and any interested person may be present and will be heard with respect to the subject matter. A bidder who has submitted a bid and statement in accordance with the provisions of this Call and the Specifications hereinafter mentioned may forthwith, after all proposals have been read, change the price or any other term of his bid; and such change or changes shall immediately be written into his bid. No changes will be permitted, however, which will have the effect of lowering the prices bid. The bids will then be taken under advisement by Navy and an acceptance made within 30 days thereafter, subject, however, to the later approval of the President of the United States, which approval may not be obtained within such 30-day period. Navy reserves the right, in the public interest, to reject all bids and to order a new public sale.

3. The products hereby offered for sale are by-products of the production of petroleum and its associated natural gas from Naval Petroleum Reserve Numbered 1 (Elk Hills), and this sale relates to the entire amount of such products as will accrue to Navy's account during the period from about October 11, 1944 to and including November 30, 1945. The quantities that will be available from time to time are subject to (a) the speed of development work to increase the present production of petroleum, (b) a maximum authorized daily rate of production of petroleum available to Navy of 50,000 barrels, (c) an economic gasoline content of the natural gas warranting its processing, and (d) causes beyond the control of Navy. Approximately 4,000 gallons daily of natural gasoline will be available for delivery at the so-called Elk Hills gasoline plant in the North Half of the North East Quarter of Section 3, Township 31 South, Range 24 East, MDB&M, Kern County, California. An indeterminate amount of natural gasoline and of liquefied petroleum gas, as more fully explained in the Specifications, may also be available for delivery at the so-called South Coles Levee gasoline plant of the Standard Oil Company of California in the West Half of the North East Quarter of Section 10, Township 31 South, Range 25 East, MDB&M, Kern County, California.

4. Navy reserves the right to reduce or stop production of petroleum and consequently of natural gasoline and liquefied petroleum gas at any time when petroleum from the Reserve is no longer required for the national defense and, more particularly, for the meeting of the critical need for petroleum products on the West Coast to supply the armed services in the Pacific theater. The contract of sale will, accordingly, contain provisions for partial or total cancellation by Navy.

5. Specifications containing detailed information on the estimated quantities and the quality of the products offered for sale, form of bids and statements as to qualifications, bond requirements, payments, deliveries, volume measurements, provisions respecting price, form of contract, information to be supplied by bidder, etc., can and should be obtained by prospective bidders from Director, Naval Petroleum and Oil Shale Reserve, Navy Department, Washington, D. C.; the Inspector, Naval Petroleum Reserves in California, 402 United States Court House and Postoffice Bldg., Los Angeles 12, California; or the District Supply Officer, 12th Naval District, Federal Office Bldg., San Francisco 2, California. All proposals must conform to such specifications.

RALPH A. BARD,
Acting Secretary of the Navy.

Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. The plan for joint action hereby approved and all contractual arrangements made to effectuate the plan shall not continue in operation beyond the effective period of this order.

[Richmond Rev. Order 1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN DESIGNATED AREAS IN VIRGINIA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Richmond District Office of Region IV of the Office of Price Administration by General Order Number 50, issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order Number 17, issued May 5, 1944, *It is hereby ordered*, Subject to Supplementary Order Number 40 (issued April 2, 1943; 8 F.R. 4325) that Order Number 1, with Appendix A thereto, issued June 28, 1944, under the said General Order Number 50 be, and it hereby is, amended so as to read in full as follows:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer and near-beer, either in containers or on draught, when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments situated within the following portion of Virginia:

The counties of Accomack, Albemarle, Amelia, Brunswick, Buckingham, Caroline, Charles City, Chesterfield, Culpeper, Cumberland, Dinwiddie, Elizabeth City, Essex, Fluvanna, Gloucester, Goochland, Greene,

Greensville, Hanover, Henrico, Isle of Wight, James City, King George, King and Queen, King William, Lancaster, Louisa, Lunenburg, Madison, Mathews, Mecklenburg, Middlesex, Nansemond, New Kent, Norfolk, Northampton, Northumberland, Nottoway, Orange, Powhatan, Prince Edward, Prince George, Princess Anne, Richmond, Southampton, Spottsylvania, Stafford, Surry, Sussex, Warwick, Westmoreland, and York.

All towns and municipalities in the said counties, and the cities or towns of: Charlottesville, Fredericksburg, Hampton, Hopewell, Newport News, Norfolk, Petersburg, Phoebus, Portsmouth, Richmond, South Norfolk, Suffolk, Williamsburg and Yorktown.

SEC. 3. Ceiling prices. (a) On and after the effective date of this order if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed by brand name in the appendices hereto and if you believe that the maximum price fixed for such beverage in the appendices hereto under the captions "All Brands Other Than, etc." or "All Brands in Bottles of All Other Sizes" is not appropriate to such beverage, you may make application to the Richmond District Office of the Office of Price Administration requesting that such beverage be specifically listed by name in one or the other of the appendices hereto. Upon such application or of its own motion, the Richmond District Office of the Office of Price Administration may at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists set forth in the appendices hereto.

(c) You may not add any taxes to your ceiling prices set forth in the appendices hereto except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. How to figure your ceiling prices. (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4-10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for the base period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4-10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of

determining your classification as herein provided, no consideration may be given to sales of beverages listed by brand name in Appendix B hereof. You must figure the group to which you belong as follows:

(1) Group 1-B. Your establishment belongs to Group 1-B if during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 1-B establishments.

(2) Group 2-B. Your establishment belongs to Group 2-B if during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 2-B establishments, but were less than those provided in Appendix A for Group 1-B establishments.

(3) Group 3-B. Your establishment belongs to Group 3-B if during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2-B establishments. Except as otherwise provided in this order, all establishments that were not in operation during the base period of April 4-10, 1943, also belong to Group 3-B. No establishment in violation of sections 4, 5, 10 and 11 of this order may sell at prices higher than those set forth for Group 3-B sellers in the appendices hereto.

(c) If your establishment was not in operation during the base period of April 4-10, 1943, and accordingly belongs to Group 3-B, you may file an application to have it reclassified into the same group as the nearest eating and drinking establishment that you can show is of the same type as yours is and that has already been properly classified in Group 1-B or in Group 2-B. Unless and until your application is acted upon and your establishment has been reclassified, it must retain the classification of a Group 3-B seller and must continue to observe the ceiling prices provided for that group in the appendices hereto. In all cases your application for reclassification must be filed with the Richmond District Office of the Office of Price Administration not later than either the 1st day of October, 1944, or the 30th day after the beginning of operations by your establishment (whichever day is later) and must contain the following information:

(1) Name and address of your establishment and of its owner or owners.

(2) A description of your establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(3) The selling prices by brand name of all malt or cereal beverages sold since the beginning of its operation.

(4) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(5) Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) After you have filed with your War Price and Rationing Board the signed statement required by the provisions of section 5 below, your group classification may not be changed except as provided by this order.

SEC. 5. Filing with War Price and Rationing Board. (a) Not later than the 6th day of July, 1944, or the 6th day after the beginning of operations by your establishment (whichever day is later) you must file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

(b) If and for so long as you have not filed your signed statement as required by the provisions of subsection (a) above of this section 5 or are otherwise not correctly classified into your proper group as provided in section 4, you are hereby classified as a Group 3-B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed for Group 3-B sellers in the Appendices hereto. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. Modification of prices. After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the district in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4-10, 1943, legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Control Act, as amended, your legal ceiling prices on April 4-10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. Exempt sales. The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially

all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 2.)

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. Evasion. If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4-10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4-10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which can show that it derives not less than 70% of its gross revenue from the sales

of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. Records and menus. If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order Number 50, as well as Restaurant Maximum Price Regulation Number 2, as either may have been heretofore or may hereafter be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order Number 50 are the following:

(a) You must preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) You must continue to prepare and maintain such records as have been customarily kept;

(c) You must keep for examination by the Office of Price Administration two copies of each menu used by your establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. Posting of prices. If you are an operator of an eating or drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught, or

(b) Posting a sign giving the same information as required on menus or bills of fare by subsection (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

(c) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3-B sellers in the appendices hereto during such time as such establishment is not in compliance with this section.

SEC. 11. Posting of group number. (a) If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers while eating or drinking, showing the group number of your establishment as classified under this order. The card

must read "OPA 1-B", "OPA 2-B", or "OPA 3-B", whichever is applicable. You may use the card or cards furnished you for this purpose by the War Price and Rationing Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3-B sellers in the Appendices hereto during such time as such establishment is not in compliance with this section.

SEC. 12. Receipts and sales slips. Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. Operation of several places. If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SEC. 14. Enforcement. If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for license suspension provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. Licensing. The provisions of Licensing Order Number 1 licensing all persons who make sales under price control are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.
